

**TECHNOLOGY USAGE ACKNOWLEDGEMENT**

(Grades 3-8)

Computers, networks, and online communications and information systems such as the Internet and email are becoming more commonplace in our classrooms and media centers every year. Digital curriculum and resources for students provided by the School Board of Broward County are becoming commonplace and accessible via the Internet. While these systems deliver a huge number of resources to our classrooms, their ability to serve students and teachers depends on the responsible and ethical use of every device and system.

Use of the school’s technology and/or software for any unauthorized purpose is prohibited. This includes the unauthorized use of a computer/technology, including, but not limited to, accessing or breaking into restricted accounts or networks, creating, modifying or destroying files/records without permission, copying software, entering, distributing, or printing unauthorized files/records, uploading to the Internet and/or sharing or distributing, offensive or inappropriate material, including video, and any other misuse or violation of this policy.

School Board Policy 5306 defines the appropriate use of technology throughout the district. This policy describes how computers and networks must be used to support research and instructional activities in our classrooms, labs, and media centers. It also includes the use of the digital resources provided by the School Board. First, it promotes the use of technology as a powerful educational tool that is increasingly becoming a common part of every student’s day. Second, it provides those students who used these computers, and the networks to which they are connected, to act in accordance with prescribed rules and behavioral codes detailed in the policy. Several major provisions are noted below. The full text of Policy 5306 is available on the School Board website. You may view the complete technology policy and all School Board policies at <http://www.broward.k12.fl.us/sbbcpolicies>.

**RIGHTS:**

- Students have a right to use appropriate online communications and information systems, the Internet and networks to increase their access to information and resources.
- Students have a right to use appropriate online communications and information systems, the Internet and networks to obtain information, create intellectual products, collaborate, and communicate for educational purposes.
- Students have a right to use appropriate online communications and information systems, the Internet and networks without the fear that their products or their personal reputation will be violated, misrepresented, tampered with, destroyed, or stolen.

**RULES:**

- Use of computers, networks, the Internet and online communication and information systems must be related to students’ educational activities
- Students must recognize that computers, networks, and equipment used to support online learning are shared devices and agree to use them in ways which will maintain their continued operability for all users.
- No illegal activity may be conducted using the District’s computers, networks, or online communication and information systems.
- Students must not access or distribute offensive, obscene, inflammatory, or pornographic materials, or participate in “sexting”.
- Students shall not intentionally spread, or attempt to spread computer viruses, vandalize data, infiltrate systems, or degrade/disrupt computer and/or network performance.
- All users of computers, networks, and online communications and information systems shall adhere to laws regarding copyright.
