

As part of our rigorous academic program at Franklin Academy, all students entering 2nd- 8th grade, are encouraged to participate in our *Summer Read and Respond Challenge*. Each student would read and respond to at least **one book** from the Sunshine State Young Readers Awards summer booklist.

For each book that is read, the student (incoming 2nd- 8th grader) is encouraged to complete one activity for their selected book. There are six different categories, and students may not select more than one activity from each category. The types of activities and explanations of each are included for your reference. The activities will be collected during the first week of school. The documents should all be put into a folder.

Presentation

1. Place all documents, if applicable, into a presentation folder.
2. Include a title page for each book selected and include an illustration on each title page.
3. Turn in the folder to your teacher on the first day of school.
4. Please note, this will NOT be for a grade but is highly recommended. Students may turn it in to their homeroom teacher.

We encourage students to complete more than one book project.
